

## decision source™

### *A Streamlined Approach to Information Management*

*DecisionSource™ is an information management solution that translates data into meaningful information for the right people at the right time – throughout the travel and reimbursement lifecycle. DecisionSource offers critical program safeguards and answers questions at all levels within your organization.*

### **SIMPLIFY AND STREAMLINE**

It has never been this easy to get a comprehensive picture of your travel program. DecisionSource delivers information before, during and after travel takes place — in easy-to-use, Web-based systems featuring dashboards that allow you to drill-down to essential data.

### **The Source for Proactive Intelligence**

At every point in a traveler's trip, DecisionSource gathers the intelligence travelers and managers need to make solid decisions. Serving as a single source for consistent, accurate information, DecisionSource offers the right information to the right people at the right time, including travelers, and the various teams involved in, or relying on, the travel program.

#### **DecisionSource: Data Manager**

DecisionSource: Data Manager provides at-a-glance information to measure program effectiveness, spot trends, improve cash management and drive savings and compliance. By supplying vital information to cross-functional teams – online and on-demand.

#### **DecisionSource: Security Manager**

A comprehensive global security and crisis management platform that allows you to mitigate risk by providing impact and event monitoring, destination monitoring and proactive traveler tracking.

## Corporate Social Responsibility

BCD Travel helps our clients help the environment. DecisionSource: Data Manager provides the data to diagnose current environmental impact, eradicate emissions where possible, reduce your carbon imprint and offset remaining emissions. Because you can't change what you can't measure, we have integrated flexible carbon emission reporting (according to DEFRA and GHG standards), which drills down to departmental and individual levels.

Sustainable travel management goes hand-in-hand with the socially-sound responsibility of promoting your employees' wellbeing while on the road. DecisionSource: Security Manager provides the traveler tracking you need to respond immediately to any type of emergency.

### decision source™

#### • data manager

##### **DecisionSource: Data Manager enables you to:**

- Establish and monitor performance to savings targets to drive program compliance and savings, leverage supplier contract commitments, and avoid financial risk
- Identify trends that will drive policy, purchasing and savings strategies
- Access timely global data, with drill-down abilities to the transaction level
- Provide historical information and a range of metrics for comparison over time
- Drive accountability through transparency into travel-related expenses
- Improve cash management by closing the gap between travel expenses incurred or booked, but not yet expensed
- Change and reward behaviors through root cause analysis of traveler buying patterns
- Supply vital information to cross-functional teams
  - online and on-demand
- Ensure data quality and accuracy through client specific business logic
- Adhere to each client's unique security and privacy rules

### decision source™

#### • security manager

##### **DecisionSource: Security Manager enables you to:**

- Locate travelers on the road, including en route changes and flight tracking, with comprehensive views of their itineraries
- Enable travelers to be informed, productive and safe with the most current destination and risk information available
- Identify "hot spots" (security, weather and health threats) via a global map interface
- Access drill-down information on employees in hot-spot locations
- Provide a flexible reporting scope with defined search criteria
- Designate and track VIP travelers and expatriates
- Identify particular travelers in a specific location
- Track hotel bookings overseas after initial reservations are made (if booked through agency or agency is notified) so you always know where your travelers are staying
- Push important information via e-mail or SMS alerts to travelers and corporate managers responsible for travel, security and health
- Provide a high level of pre-trip and on-trip data integrity within the system, updating as frequently as within 60 minutes of processing a new or modified reservation
- Limit access to specifically authorized company users through a secured Web site
